

SERTOspeed

the electro-hydraulic pre-assembly device

- Quick, cost-saving assembly
- Safe and easy handling
- High performance with consistent quality
- Broad range of use in terms of size and materials

SERTOspeed

The convenient tabletop unit is suitable for both small (project orders) and large series, guaranteeing perfect pre-assembly with constant quality and high cost-effectiveness. Equipped with the pre-assembly unit SERTOspeed AD, all metallic SERTO unions from 10 to 35 mm can be pre-assembled.

For each material type, tool sets are available in all sizes. These are labelled to prevent mix-ups.

Our customers' experience shows that 1 to 2 minutes can be saved per assembly.

SERTOspeed AD
